

Healthy Housing - Health Equity and Advocacy

Year 1 January 1 2019 - December 31st, 2019

Goal: Increase healthy housing throughout the region to reduce exposure to radon, lead, and poor quality well water.**Strategy:** Increase health equity advocacy for safe affordable housing through participating in local and regional housing related groups and coalitions.

Objectives	Action Steps	Status	Priority Population	Resources & Barriers
A) Build capacity, training and resources for local health equity advocates, including public health staff, related to safe, affordable housing by 12/31/2019. B) Monitoring regional data on safe, affordable housing and health equity 12/31/2020. C) Advocate for healthy housing in the region 12/31/2019.	1) Identify funding for public health staff time to attend community meetings and participate in training opportunities. 2) WCPHP bring health equity training to healthy housing advocates and stakeholders. 3) WCPHP personnel and healthy housing stakeholders will advocate for healthy housing and priority populations affected at community meetings. 4) Use results of (Tobacco Prevention) STEPP Community Profile in determining health equity needs related to indoor air quality.
