

FLU VACCINE It is that time of year again, flu season. The short time it can take you to get the flu shot, can help protect you and your loved ones from the flu.

Get the Facts

- Immunizations work to protect you and your child by putting a weakened, dead, or diluted portion of the disease in your system.
- Immunizations save approximately 2.5 million lives per year.
- Immunizations are safe, they are regulated by the FDA.
- Immunizations can save your family time and money.
- All students attending any school in the state of Colorado are required to be vaccinated against certain vaccine-preventable diseases.

Visit the [CDC—Influenza \(FLU\)](https://www.cdc.gov/flu) for more information on the vaccine, symptoms, and much more.
